Candy Jar Estimation and Math Questions

Guess How Many Pumpkins? _____
Guess How Many Candy Corn? _____
How many Halloween M&M's _____

How many total Pumpkins were in the Jar? _____
How many total Candy Corn were in the Jar? _____
How many total M& M's were in the Jar? _____

Write a number sentence using Greater Than, Less Than, or Equal To…

Pumpkins

_____ ____ _____

Candy Corn

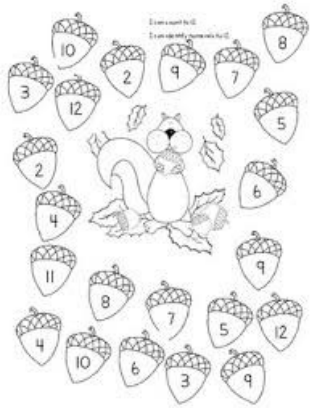

_____ ____ _____

M & M's

_____ ____ _____

SEPTEMBER

	Group 1	Group 2	Group 3	Group 4
Name of Activity	Candy apple tree...	Roll and Cover	September word match	What goes together
Goal/Objective	More/Less, counting, sorting, addition	Count and Identify numbers 1-12	Read a september back to school word, match to the picture	Matching, categorizing, naming
Activity Plan	_ students pick marshmallows or fruit loops to use as apples _ students sort apples _ students to count how many apples they sorted _students clear boards _ students to roll a die and determine how many red… roll again to determine how many green… roll again to determine how many yellow to put on. Then add all three numbers together. How many in total. _ clear board and repeat 5 times.	_ students get a board _ students have three opportunities to roll each number _ students roll a die and use a white board marker to coss out one of the three numbers they rolled. _ students roll again and cross out the next number _ if they have rolled a number “4” three times and they have no more to cross out the miss there turn _ student with the most crossed out numbers at the end is the winner.	_ students can play like memory. _ place word and picture cards face down _ each child turns over 5 on there turn to see if they can match any words/pictures _ if they get a match they can turn over 2 more cards _ when they have no more matches they turn there cards over and it goes to the next person.	_ Students will be given the compound word and will need to search to see if they can find the two words to make up the word _ The two individual words will be in a pile in the middle all spread out.

Picture or Example				
Needs	*Marshmallows or cereal - Red, Yellow, Green *Dice	*Dice 2 per student		
Student Groups	Students: Ella - Annabelle Daniela- Marino Julian Audra- Eileen	Students: Mason- Marcille Joe M- Arcade Gavin Avery- Carla	Students: Joseph- Amber Chrisitan- Barb Cesia Gavin C	Students: Jack- Mike Wes- Mari Trevor

Back to School Matching Game

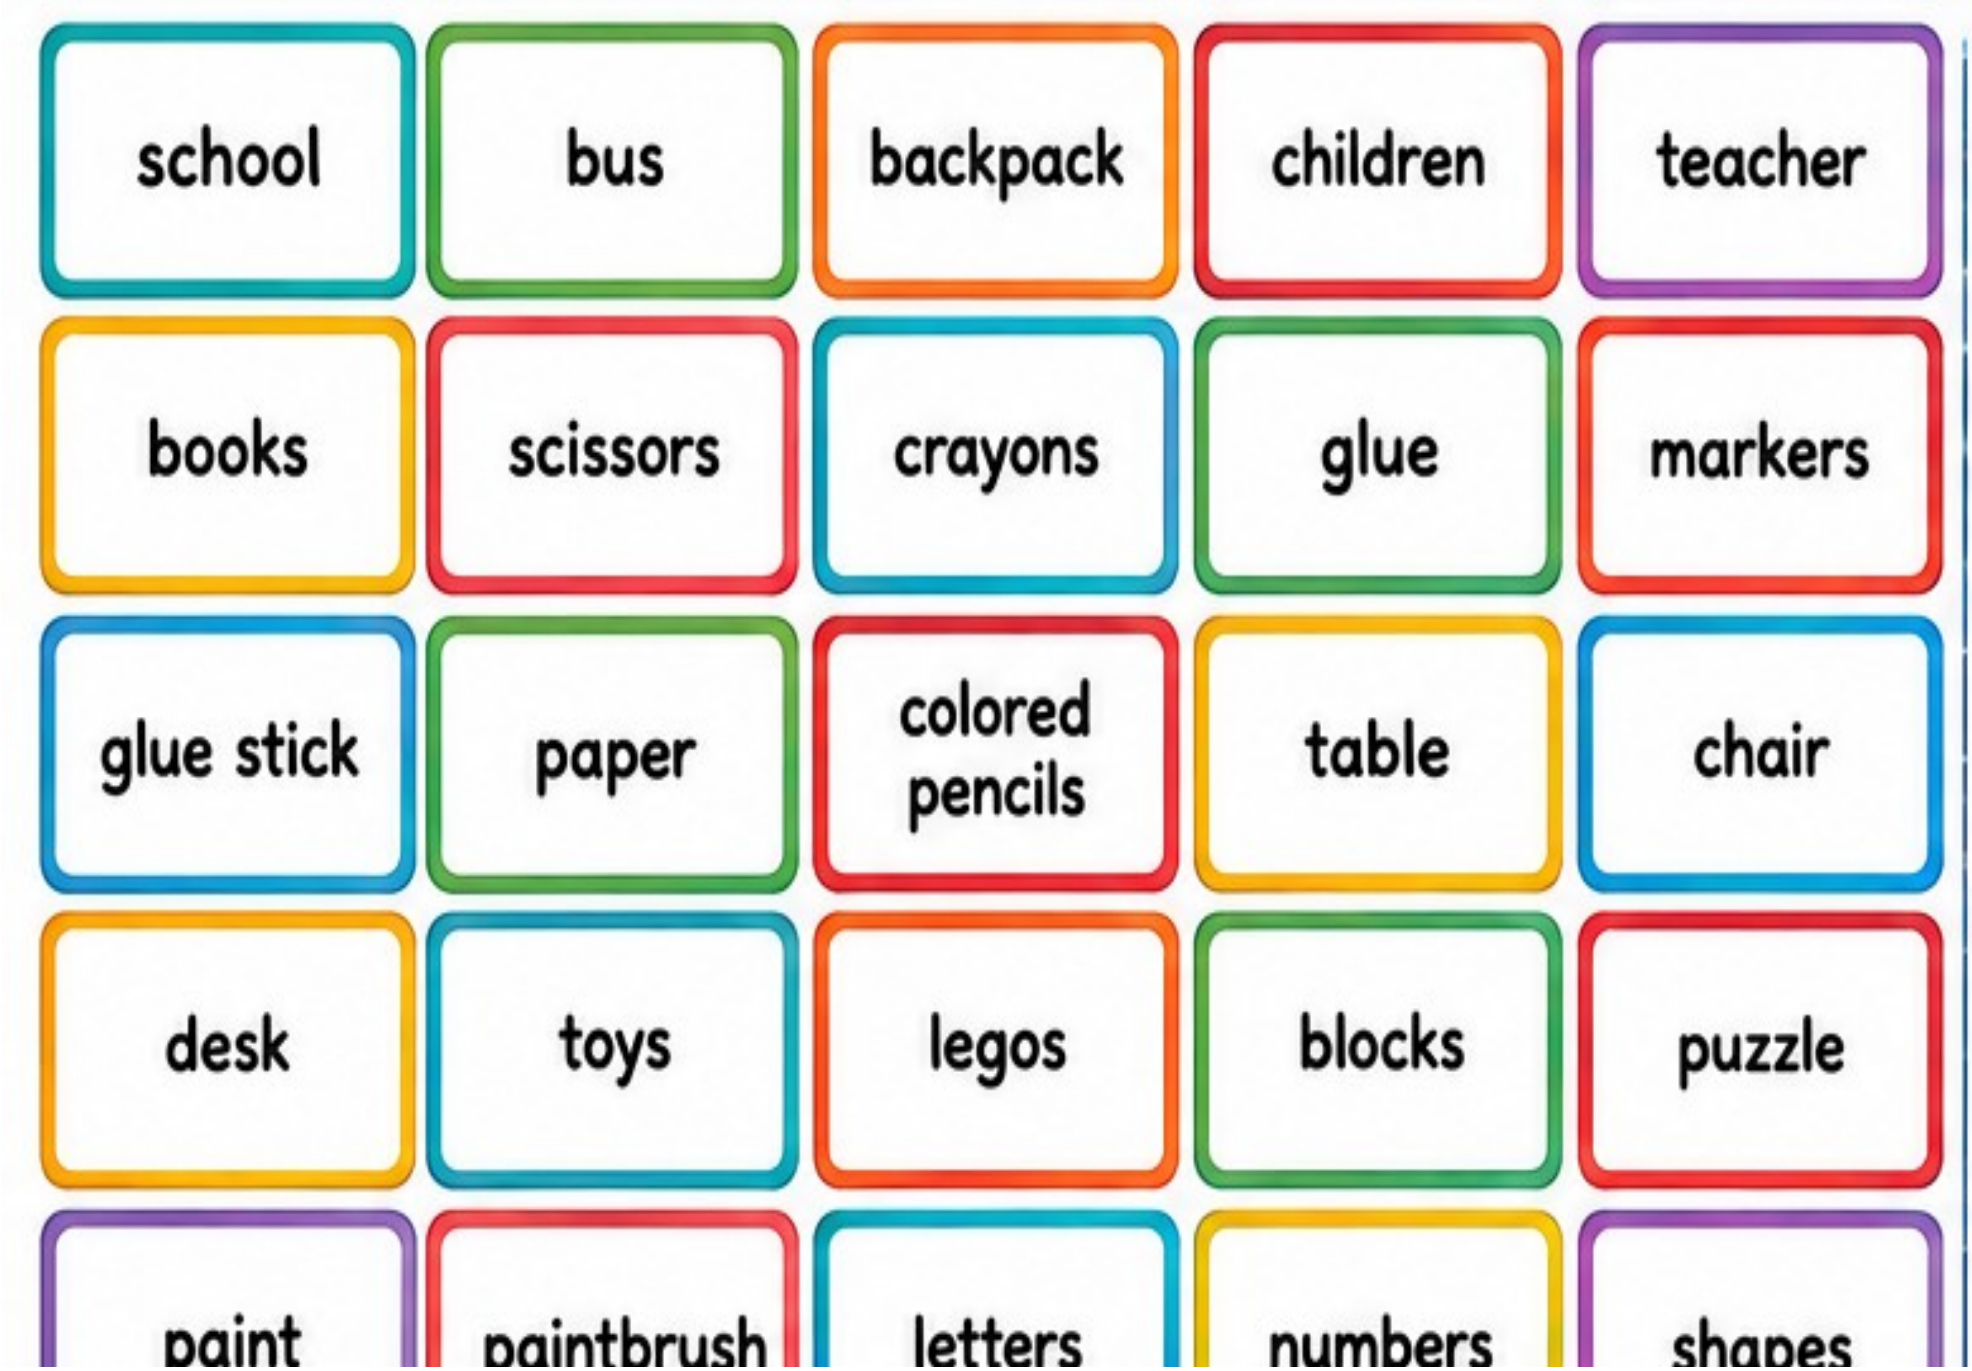

Match the word card to the correct picture card.

school	bus	backpack	children	teacher
books	scissors	crayons	glue	markers
glue stick	paper	colored pencils	table	chair
desk	toys	legos	blocks	puzzle
paint	paintbrush	letters	numbers	shapes
colors	swing	beanbag	snack	ball
lunch box	sandwich	pizza	tablet	computer
folder	binder	door	bathroom	office
cafeteria	book	fidget	trains	garden

Count and Sort

Back to School ROLL and COVER

Roll the dice, find the number, and cover it!

7	3	12	5	9	2
11	4	8	1	6	10

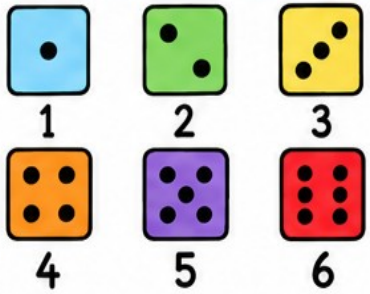

8	1	6	11	3	9
12	5	2	7	10	4

6	10	4	12	8	1
9	5	2	7	11	3

How to Play:

1. Roll the dice.
2. Find the matching number on a board.
3. Cover it with a marker, chip, or small object.
4. Keep rolling until all 12 numbers are covered!

Dice Numbers:

You can do it!
