(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Life Skills Math **Grade Level:** 9-12

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • **Functional money skills:** Use a bank account to check balances, pay bills, and move money between accounts (making a transfer). • **IEP goals:** Students use their AAC device, their voice, or an adult scribe to communicate, following each student's IEP goals.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • What is a transfer, and why do people make one? • How do I check how much money is in my checking and savings accounts? • How do I know if I have enough money to pay my bills?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? Students will be able to: • Share what they are thankful for in writing, using an AAC device or an adult scribe if needed. • Explain, with support, what making a transfer is and why it is important. • Log in to Bankability, check their checking and savings account amounts, and pay any bills. • Decide whether they need to transfer money from savings to checking to pay their bills.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning: • **Formative:** Observation of AAC use or verbal responses during the expectations and the Thankful Thursday warm-up. • **Formative:** Student responses to the recap of making a transfer. • **Formative:** Whether each student checks their accounts and pays their bills in Bankability. • **Formative:** Student response when I ask who needs to make a transfer	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. • **AAC:** Students use their AAC devices, and an adult writes for the students who need it. • **Content:** The Digitability video gives students pictures and spoken information. • **Content:** We briefly recap the video before students log in to Bankability.

from savings to checking.	• **Process:** Adult support is given as each student needs it. • **Environment:** Students may take a break when they finish. • **IEP/504:** Accommodations in each student's IEP/504 plan will be followed.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

- Students begin with the warm-up video and then review the classroom expectations.
- Students make animal cards for Thankful Thursday, which we hang in the room.
- I log in to Digitability and play the video for the whole group.
- Students log in to Bankability on their own devices.
- Students who finish may take a break.

Domain III: Instruction

Activate Prior Knowledge/Motivation:
Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Students already use Bankability and the weekly Digitability videos. Thankful Thursday lets students share something personal before the lesson. The recap connects the video to what students do next, checking their accounts, paying bills, and deciding whether they need a transfer.

Materials Needed:

Video about being thankful, classroom expectations, animal-shaped cards, pencils and markers, students' AAC devices, Digitability "Making a Transfer" video, projector/board, student devices for Bankability

Vocabulary (New or Review):

Thankful; transfer; checking account; savings account; bill; pay; balance

Sequence of the Lesson:
What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Warm-Up Video

- Students watch a video about being thankful.

Expectations

- We go through the classroom expectations.

Thankful Thursday Warm-Up

- Each student gets a card in the shape of an animal.
- Students write what they are thankful for, and may use their AAC devices.
- An adult writes for students who need it.
- We collect the cards and hang them in the room.

Lesson: Making a Transfer

- I log in to Digitability and play the “Making a Transfer” video.
- After the video, we briefly recap making a transfer and explain why it is important.

Bankability

- Students log in to Bankability and check how much is in their checking and savings accounts.
- Students see whether there are any bills to pay, and pay them if there are.
- I ask if anyone needs to make a transfer from savings to checking to pay their bills.
- When students finish, they may take a break.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

As students finish in Bankability, I ask them to tell me or show me what a transfer is and whether they made one today. Then they may take a break.
Connection to Next Lesson: Students keep using Bankability to check their accounts and pay bills.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure

activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
