Gwynedd Mercy University-School of Business & Education
(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Life Skills Math (Kitchen/Food Prep) Grade Level: 9-12

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • PA Career Education and Work Standard 13.3.11.B: Apply functional life skills, including food preparation and kitchen safety, needed for independent living. • Functional Measurement: Measure dry and liquid ingredients using standard units (cups, tablespoons, teaspoons) to follow a recipe.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • How do we safely and accurately measure and combine ingredients to follow a recipe? • How can visual supports and AAC help us complete a cooking task independently?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? • Group 1 (AAC users): Students will use picture-based visual instructions and their AAC devices to measure and mix ingredients for their assigned dressing recipe with a partner. • Group 2: Students will safely chop vegetables following picture-based instructions with adult/PCA support. • Group 2: Students will independently locate their assigned station using the station assignments shown on the projector. • All students will wash their hands and follow kitchen safety/hygiene procedures before food preparation.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's.

indicate evidence of learning:	Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.
• Group 1: observation checklist of measuring/mixing steps completed correctly for the assigned dressing • Group 1: use of AAC device to request ingredients/tools or indicate next step • Group 2: observation of safe vegetable-chopping technique and following of picture instructions • Hand-washing completed by all students before starting food prep • Group 2: correct station located based on projected assignment	• Group 1: Symbol Stix visual instructions created to match each student's AAC device vocabulary, with one picture per ingredient and per step • Group 1: students paired 2-per-dressing for peer support, with adult/staff support available • Group 2: picture-based instructions in the same visual format as Group 1 for consistency, with PCA/adult support at each station • Group 2: visible timer displayed for the snack/break period to support predictability and transitions • Group 2: station assignments displayed on the projector to reduce transition anxiety and support independent navigation

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

• Visual/Symbol Stix supports posted and consistent across both groups

• Kitchen safety and hygiene routine (hand-washing) reviewed and modeled before food prep begins

• Station assignments displayed on the projector for Group 2 to reduce confusion during transitions

• Timer displayed on the board during Group 2's snack/break to support predictable transitions

• Adults/PCAs paired appropriately with students based on individual support needs

• All students clean up their workspace before leaving the kitchen, reinforcing kitchen safety and personal responsibility routines.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

• Frame the lesson: today's food prep connects directly to Friday's group lunch, which the students

are making themselves — the dressing and vegetables prepared today will be used in the sandwiches.
• Group 1 (0-5 min): Students enter the kitchen, review the visual schedule, and wash their hands before starting.
• Group 2 (45-55 min): Students have a 10-minute snack and break, with a timer displayed on the board.

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Materials Needed:

• Symbol Stix visual instruction cards for both dressing recipes, matching each student's AAC device vocabulary
• AAC devices for Group 1 students
• Measuring cups/spoons, mixing bowls, and mixing utensils for dressing-making
• Picture-based instructions for vegetable chopping
• Cutting boards, kid-safe knives, and vegetables for Group 2
• Visible timer for Group 2's snack/break
• Projector for displaying Group 2's station assignments
• Hand-washing supplies

Vocabulary (New or Review):

• Measure — using a tool (cup, spoon) to find the right amount of an ingredient
• Mix — combining ingredients together
• Recipe — a set of steps and ingredients for making food
• Chop — cutting food into smaller pieces
• Station — the assigned spot where a student works

Sequence of the Lesson:

• GROUP 1 — AAC users (0-45 min):
• (5-10 min) Review station/partner assignments: 2 students per dressing recipe (2 dressings total).
• (10-35 min) Students measure and mix ingredients for their assigned dressing using the Symbol Stix visual instructions, matching pictures on their AAC devices to request ingredients, tools, or indicate the next step. Adult/staff support provided as needed.
• (35-40 min) Students clean up their station with support.
• (40-45 min) Transition: Group 1 exits and Group 2 enters the kitchen.
• GROUP 2 — Vegetable chopping with PCA/adult support (45-90 min):
• (55-58 min) Students wash their hands.
• (58-60 min) Students view their station assignments on the projector and go to their assigned station.
• (60-85 min) Students chop vegetables following the picture-based instructions, with PCA/adult support at each station.

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

- (85-90 min) Students clean up their stations. All prepared dressing and chopped vegetables are stored properly for Friday's lunch. Briefly recap what was accomplished and preview that Friday the class will assemble the sandwiches using what was made today.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
