Lesson Plan Framework

Subject Area: Essential Skills and Strategies **Grade Level: 9-12**

Student Name: Grace Dittman

<table>
<tr><th colspan="2">Domain I: Planning and Preparation</th></tr>
<tr><td colspan="2">PA Standard(s):

• PA SEL Competency — Relationship Skills: Use communication and social skills to interact effectively with others, including active listening and turn-taking in conversation.</td></tr>
<tr><td colspan="2">Essential Question(s):
Students will consider and reflect on throughout the lesson:

• What does it look like to actively listen and keep a conversation going?

• How can I use conversation skills to build and maintain connections with others?</td></tr>
<tr><td colspan="2">Objectives/Performance Expectations
What will students know and be able to do as a result of this lesson?

• Students will be able to identify at least two behaviors of active listening (e.g., eye contact, nodding, asking follow-up questions).

• Students will be able to practice starting and maintaining a conversation using a shared prompt.

• Students will be able to take turns respectfully during a group conversation activity.</td></tr>
<tr><td>Assessment Evidence/Level of Learning
Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:

• Participation in the group discussion on active listening/conversation skills

• Teacher observation during Conversation Jenga: turn-taking, engagement, use of active listening behaviors</td><td>Differentiated Instruction:
Modifications in instruction and assessment for students with learning differences, specifically those with 504’s and IEP’s. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.

• Visual list/anchor chart of active listening behaviors posted for reference during the activity

• Option to pass on a question and choose a different block</td></tr>
</table>

	• Sentence starters available for students who need support beginning a response • Small, consistent group sizes for Conversation Jenga to reduce social pressure • Extra processing time allowed before a student is expected to respond

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

• Consistent daily routine: warm-up → check-in → group discussion → Conversation Jenga → closure

• Clear group norms posted for Conversation Jenga: one person talks at a time, listen while others answer, 'pass' is always allowed

• Small groups arranged ahead of time to support comfortable participation

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

• (0-10 min) Warm-up: Wordle, Contexto, or the Sets game as a whole group.
• (10-15 min) Daily check-in.

Materials Needed:

• Wordle/Contexto/Sets game (board or device access)
• Daily check-in sheet or digital tool
• Active listening anchor chart/visual
• Conversation Jenga tower(s) with conversation-starter questions on each block

Vocabulary (New or Review):

• Active listening — fully focusing on and responding to what someone is saying
• Turn-taking — waiting for your turn to speak and letting others speak without interrupting
• Follow-up question — a question that shows interest and keeps a conversation going

Sequence of the Lesson:

• (15-25 min) Group discussion: introduce active listening and conversation skills. Discuss what active listening looks like (eye contact, nodding, asking follow-up questions) and why it matters for keeping a conversation going. Model a short example conversation together, pointing out these behaviors.
• (25-55 min) Conversation Jenga: in small groups, students take turns pulling a block, reading the question aloud, and answering it while practicing active listening (e.g., one other group member asks a follow-up question before the next turn). Teacher circulates to support group and reinforce active

listening behaviors.
• (55-85 min) Catch-up work time: students use remaining class time to complete missing assignments or other classwork, with teacher support available.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?
• (85-90 min) Groups clean up their Jenga towers. Briefly recap: what's one active listening behavior you used or noticed today? Preview that tomorrow will continue practicing conversation/social skills.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
