Gwynedd Mercy University-School of Business & Education
(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Essential Skills and Strategies **Grade Level: 9-12**

Student Name: Grace Dittman

<table>
<tr><th colspan="2">Domain I: Planning and Preparation</th></tr>
<tr><td colspan="2">PA Standard(s):

PA Career Education and Work Standard 13.3.11.B:
Demonstrate professional skills in the workplace, including appropriate work habits, organization, and time management.</td></tr>
<tr><td colspan="2">Essential Question(s):
Students will consider and reflect on throughout the lesson:

Why is staying organized important?
How can staying organized help me succeed in school?
How can using an agenda help me remember important tasks and events?</td></tr>
<tr><td colspan="2">Objectives/Performance Expectations
What will students know and be able to do as a result of this lesson?

By the end of the lesson, students will be able to identify at least two reasons why staying organized is important and use an agenda or to-do list to record at least three tasks, assignments, or important events.</td></tr>
<tr><td>Assessment Evidence/Level of Learning
Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:

Formative Assessment
Students will:
1. Verbally identify one reason organization is important.
2. Identify one way an agenda can help them.
3. Identify at least two things they could record in an agenda.
4. Use their mini agenda to record at least three personal or school-related tasks/events.
5. Check PowerSchool/Canvas and add at</td><td>Differentiated Instruction:
Modifications in instruction and assessment for students with learning differences, specifically those with 504’s and IEP’s. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.

Provide information through multiple formats, including verbal explanations, visual examples, and hands-on practice.

Provide students with a physical agenda while also demonstrating digital options.

Provide additional processing time and repeat or rephrase directions as needed.
Model how to enter an assignment into</td></tr>
</table>

least one upcoming or missing assignment, if applicable.	an agenda before asking students to complete the task independently. Break the task into smaller steps: identify the task → identify the due date → write the task → check that it was recorded correctly. Provide one-on-one prompting or teacher assistance when needed. Allow students to use their existing classroom supports and IEP accommodations. Provide examples that are relevant to students' lives, such as homework, work schedules, sports, appointments, birthdays, and school activities. For students who do not regularly receive homework, allow them to record personal responsibilities, activities, or upcoming events.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

The lesson will follow the established classroom routines and behavioral expectations already used by the cooperating teacher.
At the beginning of the lesson, students will be informed of the learning objective and expectations for participation.
The teacher will:

- Provide clear, concise directions.
- Use a visual schedule/lesson sequence.
- Provide positive reinforcement for participation and effort.
- Use proximity and quiet redirection when needed.
- Allow students appropriate processing time.
- Provide choices when appropriate.
- Maintain predictable transitions between activities.
- Use students' established behavior supports and IEP accommodations.
- Maintain a respectful and supportive classroom environment.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Ask students what they have used to stay organized so far throughout school
They have been taught to use binders and folders to keep papers in one spot
They get schedules at the beginning of the year so that they know where they are going and what time they need to be there
Ask them where they typically find assignments (canvas, powerschool)

Materials Needed:

- Laptop
- Projector/interactive board
- "Staying Organized: Keeping an Agenda" slideshow
- Pencils/pens
- Sample assignments/tasks
- Students' individual PowerSchool/Canvas accounts
- Optional: printed sample calendar/to-do list

Vocabulary (New or Review):

Agenda: A personal list of tasks or events that need to be completed/remembered

Organization: arranging or planning things in a logical order (by putting them into a schedule, agenda, etc.)

To-do list: A list of tasks that need to be completed.

Calendar: A tool used to keep track of dates, events, and deadlines.

Due date: The date something needs to be completed or turned in.

Sequence of the Lesson:
What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

- Allow students to get settled and review the visual schedule for the lesson.

- Introduce the lesson objective: **"Today we are going to learn how staying organized can help us in school and after high school."**
- Display the question: **"Why is staying organized important?"**
- Allow students to share their ideas verbally.
- Discuss how organization can help students remember responsibilities, reduce stress, manage their time, and complete tasks on time.
- Display the question: **"How can an agenda help me stay organized?"**
- Allow students to share their ideas.
- Show video on Keeping an Agenda
- Explain that an agenda can be used to record assignments, due dates, tests, events, work schedules, appointments, and other important information.
- Model how to take a sample assignment and record it in an agenda.
- Ask students what information should be included when writing an assignment in an agenda.
- Introduce four organizational tools:
- To-do lists
- Agenda books
- Calendars
- Online scheduling/planning resources
- Discuss when and how each tool can be useful.
- Ask students which organizational tool they think would work best for them and why.
- Provide each student with a mini agenda.
- Give students several sample tasks/events and have them practice recording them in their agenda.
- Have students check PowerSchool/Canvas for upcoming or missing assignments.
- Have students record appropriate assignments or responsibilities in their agenda.
- Circulate and provide prompts, feedback, and assistance as needed.

- Ask students to review their agenda and check that they have included the necessary information.
- Have students share one thing they plan to use their agenda for.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

- Review why keeping an agenda can help the students stay organized and get their work done on time, or help them remember any special dates or events
- Allow them to use the rest of the time to check PowerSchool to see if they have any missing or upcoming assignments that they can work on for the rest of class
- Encourage them to write down anything they did not complete in a to do list or agenda

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

- How do you know you were knowledgeable of your content?
- What is the evidence that your objective was clear in the lesson plan?
- How does the lesson address individual student learning needs?
- What variety of strategies and methodologies did you consider when planning?
- What is the evidence that lesson components were logically sequenced?
- How did your lesson plan include checks for student understanding?

- What PA Standards did this lesson address?

Domain II Classroom Environment

- How did students know the behavioral and academic expectations for the lesson?
- What effective routines and procedures did you implement for lesson efficiency?
- How did you insure the classroom was physically accessible for all learners?
- What evidence indicates that respect was shown between and among students and teacher?
- What evidence indicates that students placed a high value on quality participation, process, and product?
- How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

- How did you align your lesson to PA Standards?
- How did you insure a clearly stated objective, understood by learners?
- How did you provide clear explanations as to how to proceed through the lesson?
- What questioning and discussion techniques insured all-learner participation?
- What strategies did you employ to engage all students?
- Describe how you made the content meaningful due to sequencing and pacing.
- Discuss how you checked for understanding, provided feedback, retaught.
- What is the evidence that you were you flexible and responsive to the needs of the learners?
- Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
