(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Essential Skills and Strategies **Grade Level:**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • **Skills:** Self-awareness and emotional regulation: identify emotions and how we react to them. • **Skills:** Self-advocacy and communication: write a clear email to a teacher using a template.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • How do my emotions affect the way I react? • How can I use strategies to manage my emotions? • How can I communicate clearly with my teachers?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? Students will be able to: • Complete their daily check-in on Canvas. • Write their student-led communication email using the template they were given. • Connect the emotions and reactions in Inside Out 2 to what we have learned about emotional regulation.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning: • **Formative:** Daily check-in on Canvas. • **Formative:** Student-led communication email, written using the template. • **Formative:** Observation of student participation and comments while watching Inside Out 2.	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. • **Supports:** Students use a template for their email, so they know what to include. • **Process:** Students work at their own pace on the check-in and the email. • **Content:** The movie uses pictures and characters to show emotions, which helps students connect to what we have discussed.

	• **Environment:** The movie is also an entertaining break for students. • **IEP/504:** Accommodations in each student's IEP/504 plan will be followed.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

- Students begin with the daily check-in on Canvas, which is a familiar routine.
- Students complete their email independently using the template they were given.
- After students finish, we watch Inside Out 2 together.
- If we do not finish the movie, we finish it next class.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Students have been learning about emotional regulation and how we react when we feel certain emotions. Inside Out 2 is a good way to sum up what we have talked about, and it gives students an entertaining break after they finish their work.

Materials Needed:

Computers for Canvas, daily check-in, student-led communication email template, Inside Out 2, projector/screen

Vocabulary (New or Review):

Emotion; emotional regulation; reaction; communication; self-advocacy; email; template

Sequence of the Lesson:

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Daily Check-In

- Students complete their daily check-in on Canvas.

Student-Led Communication Email

- Students complete their student-led communication email using the

template they have been given.

Inside Out 2

- When students finish, we watch Inside Out 2.
- We have learned a lot about emotional regulation and how we react when we feel certain emotions, so the movie is a good way to sum up what we have talked about.
- It also gives students a nice, entertaining break.
- If we do not finish the movie, we will finish it next class.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

At the end of class, I pause the movie at a good stopping point if we have not finished. I remind students that we will finish it next class.
Connection to Next Lesson: We finish Inside Out 2 if we did not finish today.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
