**Gwynedd Mercy University-School of Business & Education**
**(*Must be used for each lesson observed by University Supervisor*)**
**Lesson Plan Framework**

**Subject Area:** Life Skills Math **Grade Level:** 9-12

**Student Name: Grace Dittman**

| **Domain I: Planning and Preparation** | |
|---|---|
| **PA Standard(s):**<br>• **Functional money skills:** Count money (dollar bills and coins) and find change, and decide whether there is enough money for an item.<br>• **IEP goals:** Students use their AAC device or their voice to communicate, following each student's IEP goals. | |
| **Essential Question(s):**<br>Students will consider and reflect on throughout the lesson:<br>• How do I count money?<br>• How do I find the change I will get back?<br>• How do I know if I have enough money to buy something? | |
| **Objectives/Performance Expectations**<br>What will students know and be able to do as a result of this lesson?<br>Students will be able to:<br>• Group 1: Count out a set number of dollar bills and count coins, coming up to the board to show their work, using their AAC device or voice.<br>• Group 2: Count money, find the change they will get for items with set prices, and decide whether they have enough money for certain things.<br>• Both groups: Use the ASL sign of the week, "buy." | |
| **Assessment Evidence/Level of Learning**<br>Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:<br>• **Group 1:** Student responses counting out dollar bills and coins, including at the board.<br>• **Group 2:** Student answers counting money and finding change, and deciding if they have enough.<br>• **Both groups:** Observation of AAC use or verbal responses during the daily routine. | **Differentiated Instruction**:<br>Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's.<br>Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.<br>• **Group 1:** We use AAC devices with this group, and I model my AAC device.<br>• **Group 1:** Students come up to the board to count coins.<br>• **Group 2:** The News2you lesson is more in-depth, with change and deciding if there is enough money.<br>• **Group 2:** Group 2 takes a break and snack first. |

| | |
|---|---|
| | • **Both groups:** Adult support is given as each student needs it.<br>• **IEP/504:** Accommodations in each student's IEP/504 plan will be followed. |

**Domain II: Classroom Environment**:

Describe Classroom/Behavior Management Plan & Routines

- Same daily routine for both groups: meditation, expectations, warm-up, and ASL sign of the week.
- Money Monday is a familiar weekly routine.
- Group 1 uses AAC devices, and I model mine.
- Group 2 takes a break and snack first.
- Group 2's lesson is more in-depth than Group 1's.

**Domain III: Instruction**

**Activate Prior Knowledge/Motivation:**

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Students use the daily routine and the weekly Money Monday warm-up. The ASL sign "buy" connects to the money they count. The lesson is similar to the warm-up, so students practice the same skill in a new way.

**Materials Needed:**

Meditation, classroom expectations, students' AAC devices, teacher AAC device, dollar bills, coins, board, News2you money lesson, items with set prices, snack items, pencils

**Vocabulary (New or Review):**

Buy; money; dollar; coin; count; change; price; enough

**Sequence of the Lesson:**

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

**Group 1**

- Meditation.
- Expectations: I use my AAC device to find them and students use theirs.
- Money Monday warm-up: students count out a set number of dollar bills.
- ASL sign of the week, "buy": I demonstrate and students try it.

- Money lesson, similar to the warm-up: students count coins and come up to the board to do it.
- We use AAC devices throughout.

**Group 2**

- Break and snack.
- Meditation.
- Expectations, said aloud.
- Money Monday warm-up: students count money and find the change they will get for items with set prices.
- ASL sign of the week, “buy”: I demonstrate and students try it.
- News2you money lesson, more in-depth than Group 1: students count money, find change, and decide whether they have enough for certain things.

**Closure**: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

Group 1: I use my AAC device to ask students to share one thing they counted, such as dollar bills or coins.
Group 2: I ask students to tell me how they found their change and how they knew if they had enough.
Connection to Next Lesson: Students continue practicing counting money and making change.

## Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

**Domain I Planning and Preparation**

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

**Domain II Classroom Environment**

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

**Domain III Instructional Delivery**

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

**Overall Assessment**

| |
|---|
| Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice. |
