Slide 1 (title):
Staying Organized: Managing your Email

- **Ask students what they know about email/ keeping their email organized to activate prior knowledge**

Slide 2:

Why is keeping your email organized important?

*****allow students to answer verbally before explaining:**

- So you don't miss any important emails (missing classwork, schedule change for work or for a test, additional information about an assignment or event)
- People use email to communicate important information about events that may occur before or after school
- People also use email to communicate when you may be missing work or you need to see them during RAMs time
- If you apply to a job they may email you information about what you need to bring, when you need to be there, your schedule, etc.
- People may try to schedule meetings or interviews with you

What could happen if you miss an important email?

*****allow students to answer verbally before explaining**

- You could miss an important date or assignment
    - For work you could miss an interview or a schedule change
    - For school you could miss an important meeting date or your teacher requesting to meet with you about an assignment or test

Slide 3:

How can you keep your email organized?

*****allow students to answer verbally before explaining**

- Delete emails that you do not need, we will talk more about this in a minute

- Star important emails
- Create folders to organize emails if you think it is necessary
- Write down any actions you need to take

Slide 4:

When should you delete or reply to emails?

*****allow students to answer verbally before explaining on the next slides**

Slide 5:

When should you delete an email

- Delete emails after you have completed the task
- If the email is old and you do not need it anymore
- Spam emails
- Unimportant emails (coupons, advertisements)

Slide 6:

When should you reply to an email?

- If someone is asking you a question
- To let someone know you have seen their email
- If there is a task that needs to be completed (you don't always need to reply to these)
- If you have any follow-up questions to an email

Slide 7:

When should you take action?

- When you need to complete something/turn something in
- When you need to add something to your calender
- When you need to get something signed
- When you need to bring something in

Slides 8-11: Lets try

Read the example and allow students to decide and answer verbally whether they would reply to, delete, or take action on an email

Slide 8: reply because someone is asking you to confirm something

Slide 9: delete because this email is most likely fake (no subject, weird link, no sender at the end of the email)

Slide 10: delete, your teacher doesn't need anything from you, they are just letting you know they got your assignment. You may want to save the email and delta it after your grade has been entered.

Slide 11: take action, this email does not necessarily need a reply, it just needs an action to be taken
