Lesson Plan Framework

Subject Area: Life Skills Math (Time Tuesday) **Grade Level: 9-12**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • Functional Math: Tell time on a clock and count inventory accurately, skills used in daily living and work settings. • PA Career Education and Work Standard 13.3.11.B: Apply functional life skills needed for independent living and employment.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • How do we tell time using a clock? • How do we count and keep track of inventory, and why does it matter in everyday life and at work? • How can mindfulness help us start class calm and focused?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? • Students will participate in a mindfulness meditation to start class calm and focused. • Students will tell time on a clock at their individual level during the Time Tuesday warm-up. • Students will count inventory accurately. • Students will complete daily progress monitoring.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are

• Participation in the meditation • Accuracy telling time on the clock during the warm-up • Accuracy counting inventory • Progress monitoring data	above grade level and/or gifted. • Clock and inventory tasks matched to each student's individual level • Manipulative clocks and AAC device supports available for students who use them • Visual schedule and routine posted for predictability • Adult support available throughout the warm-up and progress monitoring

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

• Visual routine and materials list posted on the board

• Calm, quiet environment maintained during the meditation

• Clear verbal and visual cues signal transitions between activities

Domain III: Instruction

Activate Prior Knowledge/Motivation:

• Students enter, follow the routine on the board, and gather their materials.
• Mindfulness meditation to start class.

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Materials Needed:

• Visual routine and materials list (board/projector)
• Mindfulness meditation video
• Clocks (teacher demonstration clock and individual student clocks)
• Inventory items and counting sheet
• Progress monitoring tool/program
• AAC devices as needed

Vocabulary (New or Review):

• Clock, hour, half hour — review

• Inventory — the items a store or business has on hand
• Count / total — review

Sequence of the Lesson:
What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

• Time Tuesday warm-up, part 1: students work with clocks, showing and telling the time at their individual level.
• Time Tuesday warm-up, part 2: students count inventory and record their counts.
• Progress monitoring for the day.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?
• Briefly recap what was practiced today: telling time and counting inventory.
• Preview that next Tuesday's Time Tuesday warm-up will continue building on these skills.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
