Lesson Plan Framework

Subject Area: Life Skills Math (Bankability Prep) **Grade Level: 9-12**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • PA Career Education and Work Standard 13.3.11.B: Analyze consumer and personal finance skills, including checking account balances, counting money, and completing a deposit slip, needed for independent living. • Functional Math: Use a calculator to add and subtract; count money and record amounts.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • How can a calculator help us solve addition and subtraction problems? • How do we keep track of our money and prepare to make a deposit at the bank?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? • Group 1 (AAC users): Students will participate in a mindfulness meditation, learn the ASL sign of the week, and review class expectations. • Group 1: Students will use a calculator to solve addition and subtraction problems in 'Monster Math.' • Students will log into their Bankability accounts, record their account balance, and decide whether they want to shop at Bankability on Friday. • Students will count their money and fill out a deposit slip to bring to the bank the next day.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504′s and IEP′s.

• Group 1: participation in meditation, sign of the week, and expectations review • Group 1: accuracy using the calculator to solve Monster Math problems • Accuracy recording the account balance from Bankability • Shopping decision circled (yes/no) for Friday • Accuracy counting money and completing the deposit slip	Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. • Group 1: calculator used for Monster Math so students can focus on choosing the operation and entering numbers, supported by AAC device use as needed • Monster Math game format increases engagement through a goal (collecting keys to escape the mansion) • Deposit slip and Bankability sheet modeled step-by-step before independent work • Adult support available for logging in, counting money, and filling out the deposit slip • Visual schedule and consistent routine maintained for predictability

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

• Visual schedule displayed showing today's routine for each group

• Group 2 has a snack break upon entering, consistent with established routine

• Calm, quiet environment maintained during the meditation

• Clear transition between Group 1 and Group 2 blocks

Domain III: Instruction

Activate Prior Knowledge/Motivation:

• GROUP 1 — AAC users:
• (5 min) Mindfulness meditation.
• (5 min) ASL sign of the week introduced and demonstrated.
• (5 min) Read the class expectations together.
• (10 min) Warm-up: 'Monster Math.' Students use a calculator to solve addition and subtraction problems in order to collect all the keys and get out of the Monster Mansion.

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Materials Needed:
- Visual schedule (board/projector)
- AAC devices (Group 1)
- Mindfulness meditation video
- ASL sign of the week reference
- Monster Math game (addition and subtraction problems)
- Calculators
- Devices with Bankability access
- Bankability account sheet (record account amount; circle yes/no for shopping Friday)
- Money to count and deposit slips

Vocabulary (New or Review):
- Deposit — adding money into an account (review)
- Deposit slip — the form completed to bring money to the bank
- Balance — the amount of money in an account
- Add / subtract — review

Sequence of the Lesson:
What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

- (20 min) Lesson, Group 1: prepare for Bankability. Students log into their Bankability accounts, write down how much is in their account, and circle whether they want to shop at Bankability on Friday. Students then count their money and fill out the deposit slip they will bring to the bank the next day.
- GROUP 2 — no AAC devices:
- (15 min) Snack and break upon entering.
- (10 min) Warm-up routine.
- (20 min) Lesson, Group 2: prepare for Bankability, following the same steps as Group 1 (log in, record account amount, circle yes/no for shopping Friday, count money, and fill out the deposit slip).

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?
- Briefly recap: how much is in your account, and are you shopping on Friday?
- Remind students to bring their deposit slip and money to the bank tomorrow.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
