Lesson Plan Framework

Subject Area: Life Skills Math (Time Tuesday) **Grade Level: 9-12**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • Functional Math: Tell time on an analog clock and match a written time to the correct clock. • PA Career Education and Work Standard 13.3.11.B: Apply functional life skills, including telling time, needed for independent living. • Note: verify alignment with individual students' IEP/PASA goals for functional math and AAC communication.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • How do we read a clock and show a given time? • How do we match a written time to the correct clock?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? • Both groups: Students will participate in a mindfulness meditation, review the class expectations, and learn the ASL sign of the week. • Group 1 (AAC users): Students will set their clock to match the time shown on the board and on the teacher's clock. • Group 1: Students will complete daily progress monitoring. • Group 2: Students will match a list of written times to the correct clocks. • Group 2: Students will practice foundational math skills independently via IXL.	
Assessment Evidence/Level of Learning Students will show what they know by	**Differentiated Instruction**: Modifications in instruction and

evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning: • Group 1: accuracy setting the clock to match the time on the board and the teacher's clock • Group 1: progress monitoring data • Group 2: accuracy matching written times to the correct clocks • Group 2: IXL performance data • Both groups: participation in meditation, expectations, and the sign of the week	assessment for students with learning differences, specifically those with 504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. • Group 1: the teacher models the time on her own clock so students have a visual to copy onto their clocks • Group 1: the time is displayed on the board as well, giving a second visual reference • Group 1: AAC device used to share thoughts on the class expectations • Group 2: matching task gives a structured, concrete way to show understanding of time • Group 2: IXL provides practice at each student's individual level • Visual schedule and consistent warm-up routine maintained for predictability

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

• Visual schedule displayed showing today's routine for each group

• Calm, quiet environment maintained during the meditation

• Clear transition between Group 1 and Group 2 blocks

• Consistent daily warm-up routine for both groups

Domain III: Instruction

Activate Prior Knowledge/Motivation:

• GROUP 1 — AAC users:
• Warm-up routine: mindfulness meditation; students read the class expectations and share on their AAC device; ASL sign of the week introduced.
• Time Tuesday warm-up: a time is displayed on the board and the teacher sets her clock to that time. Students show the same time on their own clocks.

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Materials Needed:

- Visual schedule (board/projector)
- Mindfulness meditation video
- Class expectations
- AAC devices (Group 1)
- ASL sign of the week reference
- Time displayed on the board, teacher's demonstration clock, and individual student clocks (Group 1)
- List of times and clocks for matching (Group 2)
- Progress monitoring tool/program (Group 1)
- Devices for IXL (Group 2)

Vocabulary (New or Review):

- Clock — review
- Hour / minute — review
- Match — pairing a written time with the clock that shows it
- ASL sign of the week

Sequence of the Lesson:

- Progress monitoring for Group 1.
- GROUP 2 — no AAC devices:
- Warm-up routine: mindfulness meditation; students read the class expectations; ASL sign of the week introduced.
- Time Tuesday warm-up: students are given a list of times and a set of clocks and match each time to the correct clock.
- IXL practice for Group 2.

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Closure: What will you do to bring closure to the lesson? How will you summarize this

lesson and preview the lesson that will follow?

- Briefly recap what was practiced today: showing and matching times on a clock.
- Preview that next Tuesday's Time Tuesday warm-up will continue building on these time-telling skills.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
