Gwynedd Mercy University-School of Business & Education
(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Life Skills Math **Grade Level:** 9-12

Student Name: Grace Dittman

<table>
<tr><th colspan="2">Domain I: Planning and Preparation</th></tr>
<tr><td colspan="2">PA Standard(s):
• CC.2.4.3.A.2: Solve problems involving measurement of liquid volumes (measuring amounts in cups).
• IEP goals: Students use their AAC device or their voice to communicate, following each student's IEP communication and functional skills goals.</td></tr>
<tr><td colspan="2">Essential Question(s):
Students will consider and reflect on throughout the lesson:
• How can I use my AAC device, my voice, or a sign to share ideas and follow classroom expectations?
• How do I show an amount on a measuring cup?
• How can I show what I know and ask for help or a break when I need one?</td></tr>
<tr><td colspan="2">Objectives/Performance Expectations
What will students know and be able to do as a result of this lesson?
Students will be able to:
• Group 1: Find and share the classroom expectations using their AAC device, with modeling from the teacher.
• Group 2: State the classroom expectations aloud.
• Both groups: Imitate the ASL sign for "pay" and work on their individual progress monitoring goals with one adult.
• Group 2: Color in a given amount in cups on a measuring cup to practice for cooking the next day.</td></tr>
<tr><td>Assessment Evidence/Level of Learning
Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:
• Both groups: Individual progress monitoring for each student, with one adult working with each student.
• Both groups: Observation of AAC use while finding and sharing expectations, and of attempts at the ASL sign.
• Group 2: Measurement Monday worksheet (cups colored in on the measuring cup).</td><td>Differentiated Instruction:
Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's.
Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.
• AAC: I model my AAC device throughout class and students use theirs to find and share expectations.
• Supports: Visual schedule shows what students need and</td></tr>
</table>

	when Group 1 leaves for speech. • **Supports:** One adult per student during progress monitoring. • **Supports:** A timer on the board for the snack/leisure break. • **Reinforcement:** Fake money earned for getting materials, participating, and helping a friend. • **Supports:** Early finishers in Group 2 may take a break. • **IEP/504:** Accommodations in each student's IEP/504 plan will be followed.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

- A visual schedule on the board shows what students need and when Group 1 leaves for speech (9:40).
- A timer on the board shows when the snack/leisure break ends for Group 2 (10:08).
- The same routine each day: materials, mindfulness, expectations, ASL sign of the week, then progress monitoring.
- Students earn fake money for getting materials, participating, and helping a friend, and shop with it at the end of the week.
- One adult works with each student during progress monitoring.
- Group 1 cleans up early so students can get to speech on time. Group 2 early finishers may take a break.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Familiar daily routines (visual schedule, mindfulness, expectations, and the ASL sign of the week) help students know what to expect. This week's sign, "pay," connects to the fake money students earn and use to shop at the end of the week. The Measurement Monday worksheet is practice and a warm-up for cooking in class the next day.

Materials Needed:

Visual schedule, projector/board, 3-minute mindfulness video, students' AAC devices, teacher AAC device, classroom expectations, ASL sign of the week ("pay"), fake money, individual progress monitoring for each student, Measurement Monday worksheet, coloring supplies, pencils, timer, snack and leisure items

Vocabulary (New or Review):

Pay; money; cup; measure; amount; expectations; break

Sequence of the Lesson:
What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Group 1 — 9:15–9:52 (leaves for speech at 9:40)

- Visual schedule on the board shows what students need and when they leave for speech.
- Students gather their materials.
- 3-minute mindfulness video.
- Expectations: I use my AAC device to find the classroom expectations and students use theirs to find and share them.
- ASL sign of the week, "pay": I demonstrate and students try it.
- Progress monitoring, with one adult per student. There is no math warm-up because of speech.
- Students clean up early and go to speech at 9:40.
- I model my AAC device throughout the session and hand out fake money for getting materials, participating, and helping a friend.

Group 2 — begins at 9:52

- Students grab their materials.
- Snack and leisure break until 10:08 (timer on the board).
- Meditation.
- Expectations, said aloud together.
- ASL sign of the week, "pay": I demonstrate and students try it.
- Measurement Monday worksheet: students color in a given amount in cups on a measuring cup. This is practice and a warm-up for cooking the next day.
- Progress monitoring, with one adult per student, until the end of class.
- Students who finish early may take a break.
- Fake money is handed out for getting materials, participating, and helping a friend.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

Group 1: As students clean up, I use my AAC device to let them know it is time for speech and to ask them to share one thing they did today, such as finding the expectations or signing "pay."
Group 2: I review the measuring cup worksheet and ask students to say or show one

thing they practiced.
Connection to Next Lesson: Students cook in class tomorrow, using the measuring practice from today. We continue modeling AAC use and ASL signs, and students use their fake money to shop at the end of the week.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the

lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
