Async Lesson Plans

- Block 2:
    - Students are given a math and ELA packet: Math has activities that have to do with counting coins, giving correct change, telling time
- Block 3:
    - Kids were assigned a GimKit they can play online that has to do with distributive property and a Delta Math assignment on distributive property that they can access through Canvas
- Block 4:
    - Students will be assigned their student led communication email, all templates and directions can be found on Canvas, their email that they respond to every week should be starred in their inbox
