Gwynedd Mercy University-School of Business & Education
(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Essential Skills **Grade Level: 9-12**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): PA Career Education and Work Standards (effective July 1, 2026): 13.2.9-12.B — Use professional etiquette and observe social protocols when communicating verbally, nonverbally, and in writing; 13.2.9-12.C — Demonstrate shared responsibility for collaborative work and the value of contributions made by team members with various perspectives.	
Essential Question(s): How can I start a conversation, show interest, and end a conversation appropriately?	
Objectives/Performance Expectations: • Identify at least two appropriate ways to start a conversation with someone new. • Practice asking a question, listening to the response, and using a follow-up statement or question. • Identify at least two behaviors that help conversations remain respectful and appropriate.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning: Formative: teacher observation during whole-group discussion and partner practice; questioning and feedback during role-play. Performance evidence: completed Student Profile and participation in a brief conversation practice using an appropriate greeting, question, listening response, and closing.	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. Provide the Student Profile in paper and digital formats. Read choices aloud and allow students to select, write, type, or dictate responses. Provide visual conversation cards with sentence starters and examples. Pair students thoughtfully and allow practice with the teacher or a trusted adult if peer interaction is uncomfortable. Model both

	appropriate and inappropriate examples without singling out students. For enrichment, students can practice follow-up questions and adapting communication to a workplace setting.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

Use predictable partner routines and explicitly teach respectful boundaries. Students may choose a partner when appropriate or be assigned one. Establish that students do not need to disclose private information. Teacher monitors interactions, provides feedback, and redirects off-topic or inappropriate comments respectfully.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Ask: 'What makes it easier or harder to talk to someone you do not know?' Acknowledge that ice-breakers can feel uncomfortable but explain that they provide a structured way to find common interests. Connect the skill to school, community, employment, and other real-life settings.

Materials Needed:

Daily check-in form, Student Profile handout, conversation starter/follow-up cards, projector/display, pencils/computers, optional whiteboard table or paper.

Vocabulary (New or Review):

Conversation, introduction, commonality, active listening, follow-up question, interest, respectful, personal information, social protocol, workplace etiquette.

Sequence of the Lesson:

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

• 0–5 min — Daily check-in: Students complete the routine and prepare materials.
• 5–20 min — Daily engagement activity: Brief partner or whole-group prompt about a favorite interest, activity, food, or entertainment choice.
• 20-30 min — Whole-group discussion: Explain why meeting new people can be challenging and why structured ice-breakers can help people find common interests.
• 30-40 min — Student Profile: Students complete the profile with information they are comfortable sharing: name, interests, favorite food/music, strengths, something they want to learn, favorite place, and something that makes them happy.
• 40-45 min — Teacher modeling: Model a short conversation: greeting → question → listening response → follow-up → closing. Highlight phrases such as 'That's cool,' 'I like that too,' and 'Tell me more about that.'
• 45-55 min — Partner practice: Students turn to a classmate and practice introducing themselves and asking questions from the profile. Teacher circulates, prompts students as needed, and gives specific feedback.
• 55-65 min — Whole-group reflection: Discuss what helps a conversation go well and what should generally be avoided, such as interrupting, asking overly personal questions, making rude comments, or sharing someone else's private information.
• 65-75 min — Closing practice: Each student identifies one conversation skill they can use again.

Closure: Students state or select one skill they practiced: starting a conversation, asking a question, listening, showing interest, or ending a conversation. Preview that the next lesson will involve communicating with families and school staff through the weekly Student-Led Communication email.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?

9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
