Lesson Plan Framework

Subject Area: Essential Skills **Grade Level: 9-12**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): PA Career Education and Work Standards (effective July 1, 2026): 13.2.9-12.B — Use professional etiquette and observe social protocols when communicating verbally, nonverbally, and in writing; 13.3.11.A — Evaluate personal attitudes and work habits that support career retention and advancement.	
Essential Question(s): How can I communicate about my progress in a clear, respectful, and responsible way?	
Objectives/Performance Expectations: • Access PowerSchool and obtain a current screenshot of grades. • Locate the Student-Led Communication email and use Reply All to communicate with the appropriate recipients. • Write one thing the student is proud of and one area the student plans to work on, and attach/paste the grade screenshot. • Star the email thread so it can be located easily for future weekly check-ins.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning: Summative/product assessment: completed Student-Led Communication email. The weekly task is worth 5 points when all required components are completed on Thursday; 4 points when completed on the next school day after a reminder; 3 points when completed during the additional make-up day (typically Monday); after Monday, the assignment receives a zero according to the classroom procedure. Teacher checks for the required screenshot, Reply All, reflection	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with 504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. Provide the previously supplied email template and Canvas example. Use a projected model and complete each step one at a time. Provide a checklist and allow students to work from a printed or digital checklist. Support students with reading, typing, navigation, or organization needs while maintaining student ownership of the

statements, and starred thread.	message. Allow speech-to-text or other approved assistive technology. For enrichment, students can independently review the tone, clarity, and completeness of their message before sending.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

Follow the established Thursday routine consistently. Display a visual checklist and model the process without displaying private student grades or email content. Remind students that the email is a school communication and should use respectful, school-appropriate language. Teacher circulates to provide navigation and writing support while encouraging independence.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Review Wednesday's focus on respectful communication and connect it to written communication. Ask: 'What makes an email to a teacher or family member different from a text to a friend?' Briefly identify professional tone, complete information, and appropriate recipients as key differences.

Materials Needed:

Daily check-in form, Student computer, powerschool, gmail, student-led communication email template, grade screenshot, teacher checklist/rubric, projector display

Vocabulary (New or Review):

Professional communication, Reply All, recipient, screenshot, reflection, progress, goal, tone, email thread, star.

Sequence of the Lesson:

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

• 0–5 min — Daily check-in: Students complete the routine.
• 5–15min — Review objective and expectations: Explain that Thursday's task is a graded weekly communication routine designed to build independence and self-advocacy.

• 15-25 min — Teacher model: Demonstrate the process using a non-student example: open PowerSchool → view grades → take screenshot → open Gmail → find the Student-Led Communication email → select Reply All.
• 25-50 min — Student work time: Students complete the process independently as able. Teacher provides step-by-step prompts only when needed.
• 50-55 min — Write the reflection: Students state one thing they are proud of and one thing they plan to work on. Students may use the provided template and Canvas example.
• 55-60 min — Insert screenshot and proofread: Students paste the grade screenshot into the email and check that the message includes all required parts and uses appropriate language.
• 60-65 min — Send and star: Students send the completed email and click the star on the email thread so it is easy to find each week.
• 65-75 min — Teacher verification/closure: Teacher checks completion and gives immediate feedback or identifies the next step for students who need assistance.

Closure:
Students complete a quick checklist: 'I checked my grades; I wrote my reflection; I included my screenshot; I used Reply All; I starred the thread.' Reinforce that this routine builds independence in communicating about school progress.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity,

to improve any of the Domains of Professional Practice.
