Lesson Plan Framework

Subject Area: Essential Skills and Strategies (ESS) **Grade Level: 9-12**

Student Name: Grace Dittman

Domain I: Planning and Preparation	
PA Standard(s): • PA SEL Competency — Self-Management: Manage stress and use organizational/task-planning strategies (e.g., mindfulness, breaking tasks into steps) to reach goals. • PA Career Education and Work Standard 13.3.11.B: Analyze time-management and task-organization strategies needed for academic and personal success.	
Essential Question(s): Students will consider and reflect on throughout the lesson: • How can mindfulness strategies help us clear our minds and calm our thoughts? • How can breaking a task into smaller steps make it more manageable?	
Objectives/Performance Expectations What will students know and be able to do as a result of this lesson? • Students will practice a mindfulness/meditation strategy to calm their thoughts, reviewing content from the prior week's emotional awareness lesson. • Students will verbally break down a familiar task (making a PB&J, choosing an outfit) into manageable steps. • Students will identify the purpose and benefits of breaking tasks into smaller steps. • Students will identify at least two strategies for breaking down tasks (e.g., small due dates, timers, one step at a time, checklists). • Students will independently break down a task of their choice using a Canvas quick check.	
Assessment Evidence/Level of Learning Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which	**Differentiated Instruction**: Modifications in instruction and assessment for students with learning differences, specifically those with

indicate evidence of learning: • Participation in the meditation video • Verbal participation in the group task-breakdown activity (PB&J / outfit) • Participation in the discussion of task-breakdown tips • Completed Canvas quick check (task breakdown of choice)	504's and IEP's. Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted. • Visual schedule and materials list posted on the board for predictability • Choice of warm-up activity to support engagement • Familiar, low-stakes tasks (PB&J, choosing an outfit) used to model task breakdown before applying the skill independently • Choice of task on the Canvas quick check to increase relevance and engagement • Teacher support available during the Canvas quick check as needed

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

• Visual schedule and list of needed materials displayed on the board

• Calm, quiet environment maintained during the meditation video

• Consistent 'Mindfulness Monday' routine established at the start of each week

• Clear verbal and visual cues signal transitions between segments

Domain III: Instruction

Activate Prior Knowledge/Motivation:

• (0-10 min) Students enter, follow the schedule and materials list on the board, complete their daily check-in, and do a warm-up activity of their choice.
• (10-15 min) Mindfulness Monday: 5-minute meditation video, introduced as a strategy for clearing the mind and calming thoughts, reviewing the concept from the prior week's emotional awareness lesson.

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Materials Needed:

• Visual schedule and materials list (board/projector)
• Daily check-in sheet or digital tool
• Warm-up activity choices

• Meditation video
• Task-breakdown discussion prompts (making a PB&J, choosing an outfit)
• Slide deck: purpose of breaking tasks down + tips and strategies
• Video on how to break tasks down
• Canvas quick check (task breakdown of choice)
• Homework materials

Vocabulary (New or Review):
• Mindfulness — paying attention to the present moment to calm the mind
• Task breakdown — splitting a big task into smaller, manageable steps
• Checklist — a list of steps to track progress on a task

Sequence of the Lesson:
• (15-23 min) Group activity: students verbally break down two familiar tasks — making a PB&J and choosing an outfit for the day — into smaller, manageable steps.
• (23-28 min) Slide 1 — Purpose: introduce why we break tasks down: turns something BIG into small, easy steps; can make projects/homework/tasks easier; allows you to manage your time.
• (28-35 min) Play a video on how to break tasks down, including tips and strategies.
• (35-45 min) Discuss tips as a class: make yourself small due dates; set yourself timers; only focus on one step at a time; make yourself a checklist.
• (45-60 min) Students complete a short Canvas quick check, breaking down an activity of their own choice into steps.

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?
• (60-90 min) Remaining time: students work on homework.
• Briefly recap that today's mindfulness practice and task-breakdown strategies are both tools they can use whenever something feels overwhelming.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
