Gwynedd Mercy University-School of Business & Education
(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Life Skills Math **Grade Level:** 9-12

Student Name: Grace Dittman

<table>
<tr><th colspan="2">Domain I: Planning and Preparation</th></tr>
<tr><td colspan="2">PA Standard(s):
• Math skills: Count and sort objects by color to complete a counting task.
• Math skills: Complete and extend patterns, and count items.
• Literacy skills: Match words and pictures, including compound words, and listen to descriptions to find the correct word.
• IEP goals: Students follow their individual IEP goals.</td></tr>
<tr><td colspan="2">Essential Question(s):
Students will consider and reflect on throughout the lesson:
• How can counting and sorting help me finish a task?
• How can I find and continue a pattern?
• How can pictures and descriptions help me find the right word?</td></tr>
<tr><td colspan="2">Objectives/Performance Expectations
What will students know and be able to do as a result of this lesson?
Students will be able to:
• Math: Count and sort cotton puffs by color to stuff a turkey cup, and complete fall patterns, a fall I Spy counting activity, and a fall counting worksheet.
• Literacy: Match compound words and their pictures, complete a compound word worksheet and a turkey puzzle, and match words and pictures in bingo by listening to descriptions.
• Work in a small group at each station for 15 minutes.</td></tr>
<tr><td>Assessment Evidence/Level of Learning
Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:
• Stuff the Turkey: The finished turkey cup, with the correct number of each color of puff.
• Fall math: The completed fall patterns, I Spy count, and counting worksheet.
• Compound words: Matched compound word cards and pictures, the compound word worksheet, and the turkey puzzle.</td><td>Differentiated Instruction:
Modifications in instruction and assessment for students with learning differences, specifically those with 504’s and IEP’s.
Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.
• Grouping: Small groups of 4 or 5 students at each station.
• Support: Every student has a PCA or adult to help at the fall math station.
• Content: Hands-on activities, pictures, and descriptions give students more than one</td></tr>
</table>

• **Bingo:** Student responses to the descriptions and correct word matches on their bingo card. • **All stations:** Observation by the teacher at each station.	way to show what they know. • **Support:** The counting sheet tells students how many of each color to use. • **Choice:** Students may color in the pictures on the compound word worksheet if they would like. • **IEP/504:** Accommodations in each student's IEP/504 plan will be followed.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

- Class is different today. There are 4 Math and Literacy stations, led by 4 different teachers in 4 different classrooms.
- Students work in groups of 4 or 5, and spend 15 minutes at each station.
- Two stations are math related and two are ELA related.
- A PCA or adult helps each student at the fall math station.
- Students earn a prize in bingo for calling bingo when they have it.

Domain III: Instruction

Activate Prior Knowledge/Motivation:

Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Students use hands-on fall activities to practice counting, sorting, patterns, and matching words and pictures. Working in small groups with different teachers gives them a fun change from our usual routine and a chance to practice skills in new ways.

Materials Needed:

Stuff the Turkey: turkey template, crayons/markers, scissors, paper cups, glue dots, counting sheet, colorful cotton puffs. Fall math: fall patterns, fall I Spy, fall counting worksheet. Compound words: compound word cards and picture cards, compound word worksheet, coloring supplies, turkey puzzle. Bingo: bingo cards (word and picture), descriptions and words to read, bingo chips, prizes

Vocabulary (New or Review):

Count; sort; color; pattern; compound word; match; description; bingo; turkey

Sequence of the Lesson:

What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their

performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Math and Literacy Stations — 4 stations, 15 minutes each

- Students are in groups of 4 or 5 and rotate through all 4 stations, each led by a different teacher in a different classroom.

Station 1 (Math): Stuff the Turkey

- Students color a turkey template (tail feathers and a head with a face).
- Students cut out the template and stick the pieces onto a paper cup with glue dots.
- Students get a counting sheet and a handful of colorful cotton puffs.
- The counting sheet tells students how many of each color to put in the turkey cup. Students count and sort the puffs by color to stuff their turkey.

Station 2 (Math): Fall Math

- Students complete fall patterns.
- Students do a fall I Spy and count the number of items they see.
- Students complete a fall counting worksheet.
- Every student has a PCA or adult to help.

Station 3 (ELA): Compound Words

- Students match the compound word cards, and then find the pictures that match each compound word.
- Students complete a compound word worksheet, writing compound words based on the pictures. They may color in the pictures if they would like.
- Students can also do a puzzle that makes a turkey, which is a way to match shapes together and create a picture.

Station 4 (ELA): Bingo

- Each student gets a bingo card with words and pictures.
- The teacher reads a description of a word and then reads the word, so students hear the description.
- Students look on their card to see if they have the word and picture, and cover it with a bingo chip if they do.
- Students call bingo to receive a prize if they have it.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

As students finish the last station, I ask them to share one thing they made or did at the stations. Students bring their finished work back with them.
Connection to Next Lesson: Students return to our usual routine and keep practicing counting, patterns, and word matching.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
