Gwynedd Mercy University-School of Business & Education
(*Must be used for each lesson observed by University Supervisor*)
Lesson Plan Framework

Subject Area: Essential Skills and Strategies **Grade Level:**

Student Name: Grace Dittman

<table>
<tr><th colspan="2">Domain I: Planning and Preparation</th></tr>
<tr><td colspan="2">PA Standard(s):
• Skills: Self-awareness and emotional regulation: identify emotions, how we react to them, and the consequences of our actions.
• Skills: Communication: share ideas and listen during a class discussion.</td></tr>
<tr><td colspan="2">Essential Question(s):
Students will consider and reflect on throughout the lesson:
• How do my emotions affect the way I act?
• What can happen, good or bad, because of how I react to my emotions?
• How can recognizing my emotions before I act help me make a different choice?</td></tr>
<tr><td colspan="2">Objectives/Performance Expectations
What will students know and be able to do as a result of this lesson?
Students will be able to:
• Name the emotions they saw in Inside Out 2 and how the characters reacted when they felt them.
• Describe good and bad consequences of those actions.
• Explain what the main character was feeling and why, and how she could change her actions if she recognized her emotions before she acted.
• Use the remaining time to finish missing assignments.</td></tr>
<tr><td>Assessment Evidence/Level of Learning
Students will show what they know by evidence of/list names of formative or summative checks, quizzes, tests which indicate evidence of learning:
• Formative: Student participation and responses in the class discussion about emotions, reactions, and consequences.
• Formative: Student responses about what the main character was feeling and how she could change her actions.
• Practice data: Missing assignments completed.</td><td>Differentiated Instruction:
Modifications in instruction and assessment for students with learning differences, specifically those with 504’s and IEP’s.
Extensions/Enrichment in instruction and assessment for students who are above grade level and/or gifted.
• Content: The movie uses pictures and characters to show emotions, which helps students connect to what we have discussed.
• Process: The discussion questions move from what happened to why it happened and what could be different.
• Process: Students can share</td></tr>
</table>

	ideas out loud in the discussion. • **Choice:** Students choose between finishing missing assignments and playing games after the discussion. • **IEP/504:** Accommodations in each student's IEP/504 plan will be followed.

Domain II: Classroom Environment:

Describe Classroom/Behavior Management Plan & Routines

- Class is shortened to 45 minutes instead of the usual hour and 15 minutes.
- We finish Inside Out 2 first, then have a class discussion.
- Students take turns sharing ideas and listening to classmates.
- After the discussion, students may finish missing assignments or play games.

Domain III: Instruction

Activate Prior Knowledge/Motivation:
Preparing students for the lesson: How will you activate prior knowledge, build background, or review previous lessons as well as motivate students for the lesson?

Students have been learning about emotional regulation and how we react when we feel certain emotions. Finishing Inside Out 2 and talking about it gives them a real example to connect to what we have learned.

Materials Needed:

Inside Out 2, projector/screen, discussion questions, missing assignments, games

Vocabulary (New or Review):

Emotion; emotional regulation; reaction; consequence; recognize; choice; action

Sequence of the Lesson:
What learning activities/strategies will you use to engage the students in the learning? What will students do to use and apply new concepts or skills (independent practice if relevant)? How will you monitor and guide their performance? Include relevant vocabulary. Use bullets to sequence your lesson.

Class Period — 45 minutes

- Class is shorter today, 45 minutes instead of an hour and 15 minutes.

Finish Inside Out 2

- We finish watching Inside Out 2.

Class Discussion

- We talk about the emotions we saw.
- We talk about how the characters reacted when they felt these emotions.
- We talk about whether there were any consequences, good or bad, from these actions.
- We discuss what the main character was feeling and why.
- We discuss how she could change her actions if she recognized her emotions before she acted.

Missing Assignments or Games

- Students have time to finish missing assignments or play games.

Closure: What will you do to bring closure to the lesson? How will you summarize this lesson and preview the lesson that will follow?

At the end of the discussion, I ask students to share one way recognizing an emotion before acting could help them in their own lives. Then students move on to missing assignments or games.
Connection to Next Lesson: Students keep using strategies for recognizing and managing their emotions.

Reflection Guidelines

The student will write lesson plans with an eye to the Danielson Framework and

the Four Domains of Professional Practice. Use this as a resource when writing lesson plans.

Domain I Planning and Preparation

1. How do you know you were knowledgeable of your content?
2. What is the evidence that your objective was clear in the lesson plan?
3. How does the lesson address individual student learning needs?
4. What variety of strategies and methodologies did you consider when planning?
5. What is the evidence that lesson components were logically sequenced?
6. How did your lesson plan include checks for student understanding?
7. What PA Standards did this lesson address?

Domain II Classroom Environment

1. How did students know the behavioral and academic expectations for the lesson?
2. What effective routines and procedures did you implement for lesson efficiency?
3. How did you insure the classroom was physically accessible for all learners?
4. What evidence indicates that respect was shown between and among students and teacher?
5. What evidence indicates that students placed a high value on quality participation, process, and product?
6. How do you assess if the lesson was attainable for all students but also had appropriate rigor?

Domain III Instructional Delivery

1. How did you align your lesson to PA Standards?
2. How did you insure a clearly stated objective, understood by learners?
3. How did you provide clear explanations as to how to proceed through the lesson?
4. What questioning and discussion techniques insured all-learner participation?
5. What strategies did you employ to engage all students?
6. Describe how you made the content meaningful due to sequencing and pacing.
7. Discuss how you checked for understanding, provided feedback, retaught.
8. What is the evidence that you were you flexible and responsive to the needs of the learners?
9. Describe how you made meaning of the lesson with some form of closure activity.

Overall Assessment

Briefly state any changes you will make the next time you teach this lesson or activity, to improve any of the Domains of Professional Practice.
